GEM OPALUS

BRAND IDENTITY · GUIDELINES & APPLICATIONS

The Earth's treasures, shaped by time, made to be yours.

EDITION 01 · 2026

CONTENTS

A brand built around the stone.

This document gathers the logo, Instagram creatives and mockups already designed for Gem Opalus into one identity system — and sets out how it should be used, so every touchpoint feels like the same, carefully kept house.

01 — BRAND OVERVIEW

A trusted source of natural gemstones.

Gem Opalus is a gemstone trader and analyst offering a range of natural precious and semi-precious gemstones — from emerald, ruby and sapphire to turquoise, citrine, garnet and lapis lazuli — including the traditional rashi ratna stones, and handcrafted settings in gold or silver.

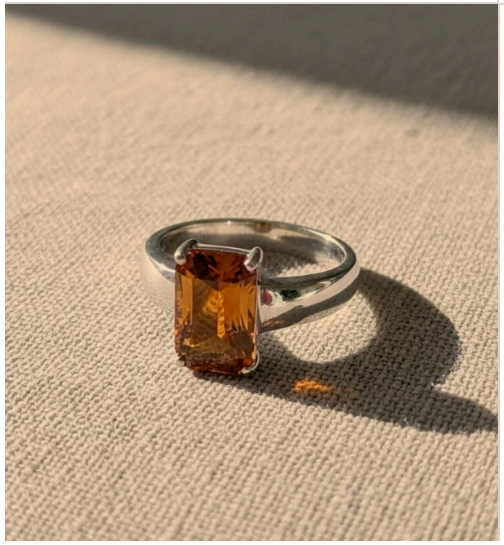

The brand speaks the way an analyst does. Every stone is introduced through what can be known about it: colour, cut, clarity, origin, history. That knowledge-first voice is what the identity is built to carry.

WHAT GEM OPALUS OFFERS

Natural precious and semi-precious gemstones · traditional rashi ratna · custom and handcrafted settings in gold or sterling silver · guidance on each stone.

Source: Instagram bio, captions and the rashi-ratna chart artwork.

VISUAL POSITIONING

An analyst's eye, a trader's range, a jeweller's finish.

Quiet, white and precise — closer to a museum label than a showroom window.

BRAND PERSONALITY

01

Authentic

Natural stones, honestly shown. Real photography in hand and on linen; colour that matches the stone.

"Your trusted source of natural gemstones."

02

Knowledgeable

Every post teaches — colour, clarity, cut, origin, history. The brand earns trust by explaining.

"Gemstone trader and analyst."

03

Personal

Pieces are made for one person. The tone invites a conversation, not a checkout.

"Let's design your masterpiece in gold or silver."

04

Timeless

Stones formed over millennia deserve a calm, lasting identity — nothing trend-led.

"Shaped by time."

BRAND ESSENCE

Shaped by time.
Made to be yours.

Drawn from the line already used in the Gem Opalus artwork — "The Earth's treasures, shaped by time, made to be yours."

DESIGN PHILOSOPHY

Let the stone lead.

One gem, one idea, one frame. Generous white space, quiet typography and a single note of gold. Luxury here is not black-and-gold decoration — it is restraint, clarity and the confidence to let a natural stone be the most colourful thing on the page.

GEM OPALUS

PRIMARY LOGO

A gold-leaf tile, a calligraphic G.

The symbol is a softly rounded tile of hammered gold leaf with a flowing G cut out of it. The G finishes in a small faceted point — a stone held at the top of the letter.

Beneath it, the wordmark is set in Aboreto capitals, tracked at 10%, in Opalus Gold. Together they form the stacked primary lockup — the master logo for every application.

SYMBOL	Gold-leaf tile · G knocked out to the background
WORDMARK	Aboreto Regular · tracking +100 · #B6915E
MASTER FILE	58.png (1563 px, transparent) · Figma: GemOP

SYMBOL & VARIATIONS

From the original artwork only.

MASTER

Symbol

For avatars, app icons, foil stamps and small marks where the wordmark would be illegible.

MASTER

Wordmark

For narrow horizontal spaces — spines, ribbons, footers, the edge of a box lid.

SINGLE COLOUR

Solid symbol

The solid version from the Figma explorations (node 427:2). Use for one-colour foil, embossing, engraving and laser marking.

EXPLORATION

Outline study

An earlier keyline exploration from the Figma file. Kept on record for reference; not for production use.

PROPORTIONS & CLEAR SPACE

Measured from the master artwork.

The unit **X** is the cap height of the wordmark. All proportions below were measured from the supplied master file and are fixed — the lockup is always scaled as one piece.

Symbol height	≈ 6.1 X
Symbol width : height	0.86 : 1
Tile corner radius	≈ 0.24 × width
Gap, symbol to wordmark	≈ 0.8 X
Lockup width	≈ 9.5 X
Minimum clear space	2 X on all sides

MINIMUM SIZE

GEM OPALUS

Lockup
25 mm · 120 px

Symbol
8 mm · 32 px

APPROVED BACKGROUNDS

White — full-colour lockup. Default for packaging and digital.

Pearl — full-colour lockup. Default for print and presentations.

Linen — solid symbol in Pearl. Gold-leaf on Linen lacks contrast.

Earth — gold-leaf symbol. The knocked-out G picks up the dark ground.

Ink — solid symbol in Leaf Gold, e.g. foil on black card.

PLACEMENT

The corner signature.

On social posts the lockup sits flush in the top-right corner at 25% of the frame width — exactly as in the existing Gem Opalus posts. It is a signature, never a headline. On print and packaging the lockup centres on the principal face, with at least 2X clear space.

Existing post — logo zone 25% W

Packaging face — centred

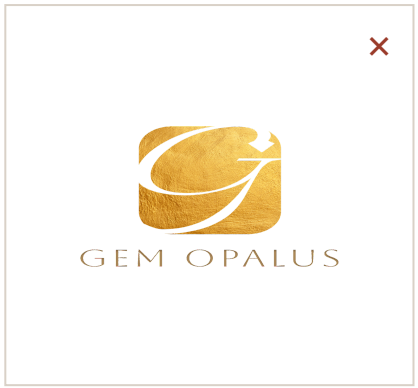

Stationery — top-left on grid

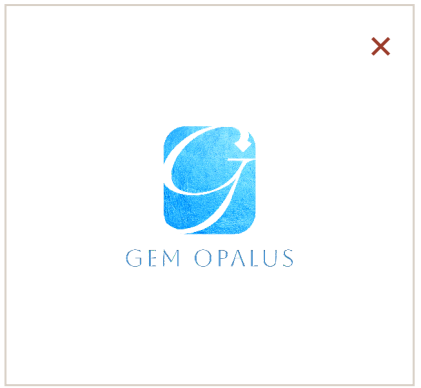

INCORRECT USAGE

Never redraw, recolour or rearrange.

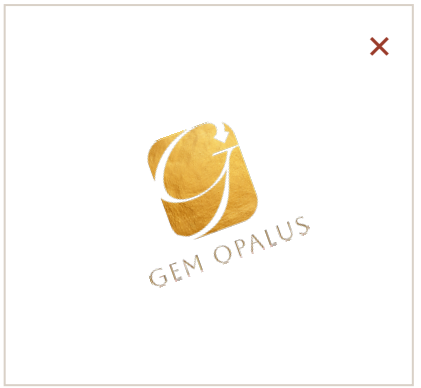

The logo is always reproduced from the master files. If an application seems to need a new version, it needs a different layout instead.

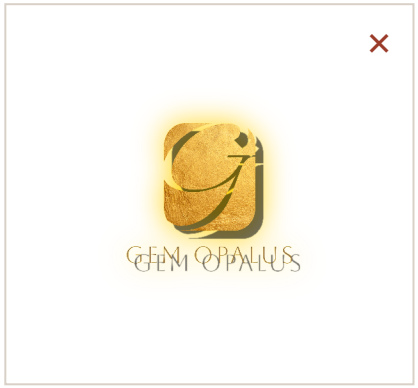

Do not stretch or distort

Do not recolour

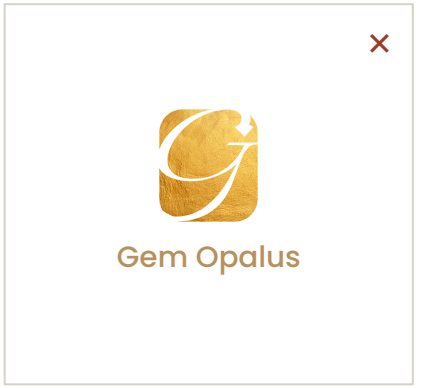

Do not rotate

No shadows, glows or bevels

Not on busy imagery

Never retype the wordmark

03 — COLOUR SYSTEM

Every colour is taken from the work.

PRIMARY

Opalus Gold

#B6915E
RGB 182 145 94
CMYK 0 20 48 29
Wordmark colour (Figma)

Text — post black, warmed

White #FFFFFF
RGB 255 255 255 · CMYK 0 0 0 0
Packaging & digital ground

PROPORTION

Light grounds dominate, as in the existing posts. Gold is an accent — the logo, a title, a hairline — never a flood fill. The gemstone itself supplies the colour.

COMBINATIONS

GEMSTONE PROFILE

Kashmir Sapphire

Known for its exceptionally rare and velvety “cornflower” blue colour.

Ink on Pearl 15.3 : 1

All body text and headlines.

GEMSTONE PROFILE

Kashmir Sapphire

Known for its exceptionally rare and velvety “cornflower” blue colour.

Opalus Gold on Pearl 2.6 : 1

Logo, eyebrows and display type ≥ 24 pt only.

GEMSTONE PROFILE

Kashmir Sapphire

Known for its exceptionally rare and velvety “cornflower” blue colour.

Pearl on Earth 10.4 : 1

Reverse panels, card backs, packaging inside.

GEMSTONE PROFILE

Kashmir Sapphire

Known for its exceptionally rare and velvety “cornflower” blue colour.

Ink on Linen 8.6 : 1

Stationery grounds, tags, tissue labels.

04 — TYPOGRAPHY

Three voices, one register.

DISPLAY · WORDMARK

AA

Aboreto

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z
0 1 2 3 4 5 6 7 8 9

The typeface of the wordmark. Capitals only, tracked +100 to +260. Eyebrows, labels, section numbers, packaging lines.

Weight Regular (single weight)

HEADLINE

Aa *Aa*

Cormorant Garamond

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz *italic*

A display Garamond with fine contrast and long, elegant serifs — refined at large sizes, close in spirit to the gold calligraphy of the G. Gem names, headlines and quotes.

Weights Medium 500 (headlines) · SemiBold 600 (small titles) · Italic (quotes, script words)

BODY · INFORMATION

Aa

Poppins

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz 0123456789

Already the body face of the gem-profile posts (“Crystal Family: Quartz”). Body copy, specifications, captions, prices, contact details.

Weights Light 300 (body) · Regular 400 · Medium 500 (emphasis) · Light Italic (captions)

HIERARCHY

EYEBROW
GEMSTONE PROFILE

Turquoise

H2 · 15 PT
Colour & Clarity

BODY · 9 / 14.5
Green to medium blue; evenly spread matrix is more valuable.

CAPTION · 7 PT
Persian turquoise, cabochon cut.

Licensing. All three families are published under the SIL Open Font License 1.1 (Google Fonts): free for commercial print, web and app use; embedding in PDFs is permitted. Aboreto is always capitals; never set long text in Aboreto or Cormorant Garamond. For Marathi copy, pair with Tiro Devanagari Marathi (headlines) and Poppins’ Devanagari (body).

05 — GRAPHIC LANGUAGE

Four quiet devices, all found in the logo or the posts.

LAYOUT PRINCIPLES

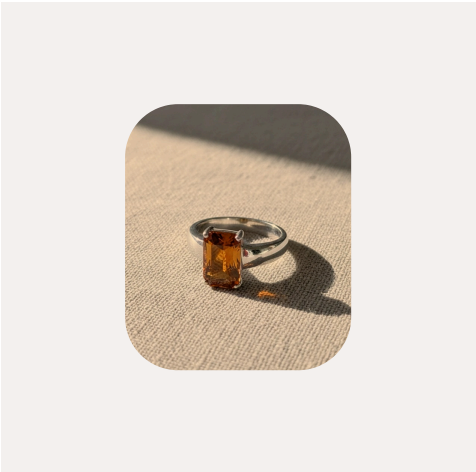

01 One hero per frame — a single stone, ring or idea.

02 40% or more of every layout stays empty.

03 Titles in Cormorant Garamond, top-left; facts in Poppins; labels in Aboreto.

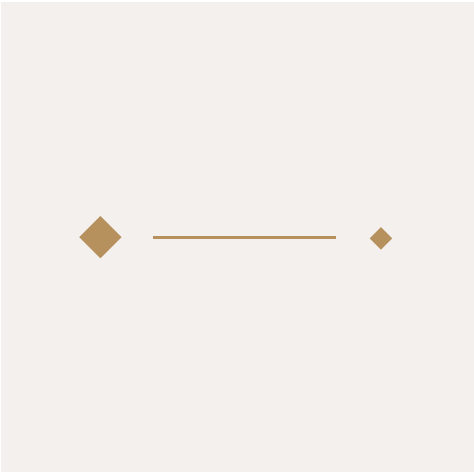

04 The lockup is a corner signature, 25% of frame width.

05 Gold is a line or a word, never a background.

The Tile

The rounded rectangle of the symbol (corner ≈ 24% of width) becomes a frame for photographs, tags and highlight covers.

The Facet

The small faceted point at the top of the G. Used alone as a bullet, divider or end-mark — never as a sparkle filter.

The Callout

Hairline elbows linking a centred stone to its facts — the device of the existing gem-profile posts, kept at 0.5 pt in Opalus Gold.

The Monogram Field

The solid G, tiled at low contrast. Reserved for inside surfaces only — box lids, tissue, pouch linings, envelope liners.

Textures. Only real materials: the hammered gold leaf of the symbol, linen, paper grain and raw stone, as seen in the box and plaque mockups. No gradients imitating gold, no marble overlays, no glitter or lens-flare effects.

06 — PHOTOGRAPHY & ART DIRECTION

Daylight, texture, truth.

The best image already on the Gem Opalus feed — a Madeira citrine on a linen surface, raked by late sun — sets the house style. It is honest about colour, tactile, and calm. Everything below extends it.

LIGHT

Natural, directional daylight. Let a crisp shadow fall — it describes the setting and proves the light is real.

SURFACE

Linen, uncoated paper, raw stone, pale wood. One surface per series so the feed reads as a set.

COLOUR TRUTH

Set white balance from a grey card. The stone on screen must match the stone in the hand — trust depends on it.

SCALE

Show the stone between fingertips or on a hand at least once per product, as the current reels do.

FOCUS

The gem is always tack-sharp; let the band, hand and background fall away.

CROP

Leave air around the subject; keep the stone off the frame edge and away from the logo corner.

In hand & on surface

From the current feed. Fingertips give scale and prove the stone is real; plain textiles keep attention on it. Keep nails clean and neutral, backgrounds out of focus, and the stone sharp.

Studio close-up

For gem profiles: the stone isolated on white or Pearl, one soft shadow below. Shoot macro at f/8–f/11, diffused light from above-left, and a small reflector for facets.

Editorial mood

Warm, low-key workshop scenes, as in the signet ring artwork. For campaigns and launches only — product truth always comes first.

COLOUR GRADING

Neutral-warm white balance (≈ 5200–5600 K). Lift shadows gently; never shift the stone's hue.

BACKGROUNDS

White, Pearl, linen, raw stone, natural wood. Avoid coloured gels and busy props.

COMPOSITION

Stone on a third or dead centre; 40% or more negative space; crop jewellery, never the gem.

AVOID

Heavy vignettes, oversaturation, beauty filters, watermarks across the stone, stock-style sparkles.

HERO PRODUCT

One ring, two languages.

The citrine solitaire in sterling silver — the stone from the “New Arrival” post — shown two ways. Photography proves the stone; illustration sells the moment. Both share one warm, single-source light and the same gesture.

PHOTOGRAPH · LEFT

Warm seamless backdrop, one soft key light from above, a relaxed hand. The stone is the sharpest point in the frame. For posts, product pages and print.

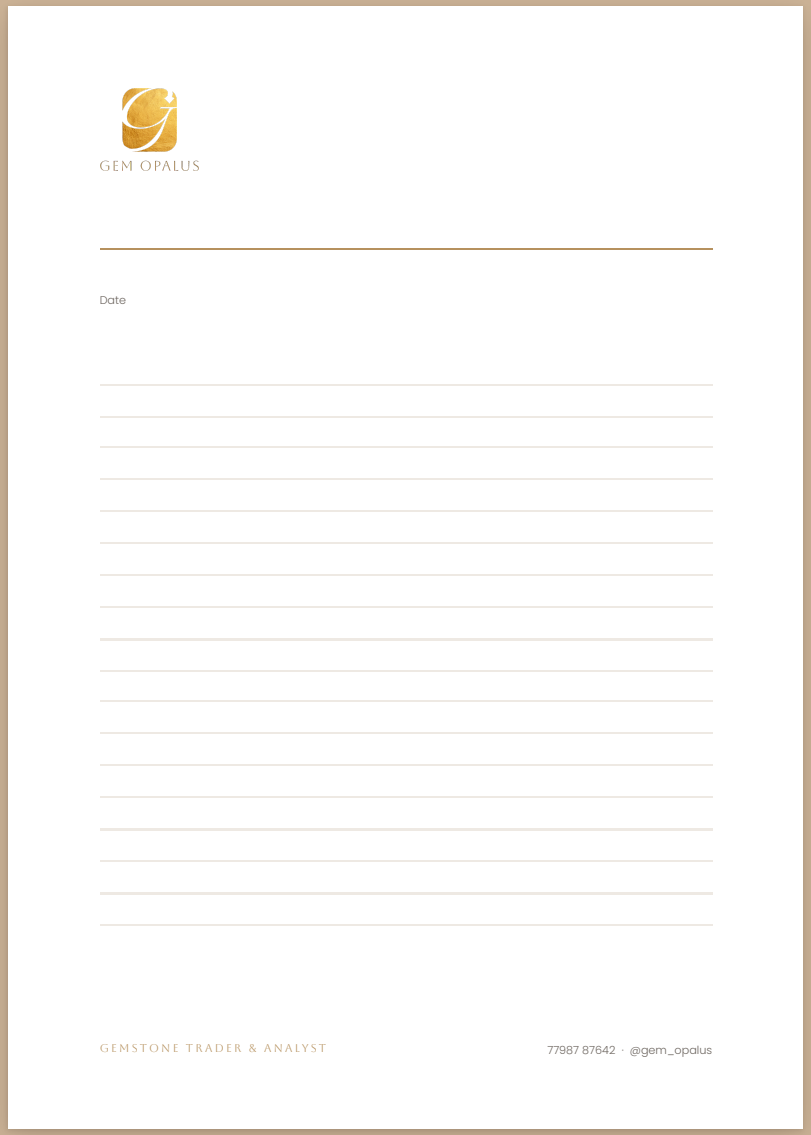

ILLUSTRATION · RIGHT

Dark ground, one pool of light, painterly finish. Native 9:16 — for story and reel covers and launch teasers, always carrying the corner signature.

Illustrated story frame, 9:16, with the symbol as corner signature.

Keep illustration for stories and campaigns only; the feed stays photographic and true to the stone.

Letterhead · A4 · lockup 26 mm · text Poppins Light 10/15 on the 12-col grid

Business card · 85 × 55 mm · front white with foil lockup; back Earth, Leaf Gold foil symbol

Envelope · DL 220 × 110 mm · Monogram Field liner inside

PACKAGING

White, with one gold signature.

The supplied mockups set the rule: a matte white box or bag, the lockup foiled in gold leaf, nothing else on the face. The orange scene belongs to the bag mockup, not to the palette — photograph packaging on Pearl, linen or stone.

Specification. 350–400 gsm uncoated white board, soft-touch laminate optional. Lockup in gold-leaf hot foil (closest match to Leaf Gold). Inside lid: Monogram Field in Pearl on White. Twisted white paper handles.

CARDS & TAGS

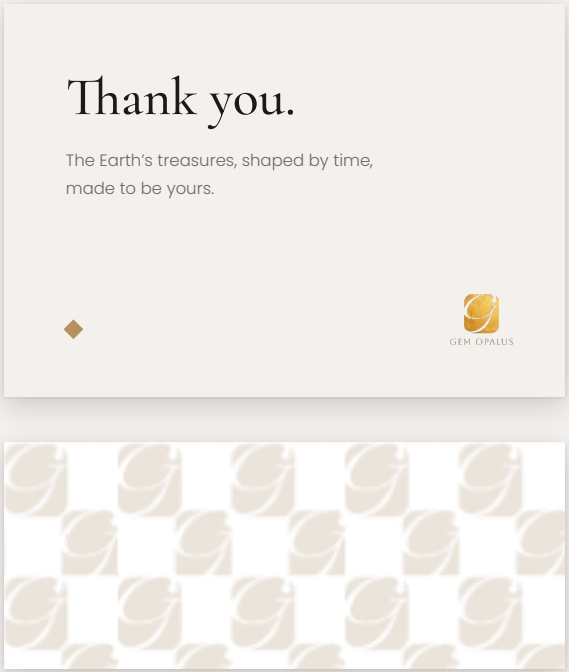

Small pieces, the same calm.

Authenticity card · folded 124 × 88 mm · Earth cover with gold-leaf symbol; inside, details are completed by hand for each stone.

Product tag · the symbol's tile as a die-cut, 30 × 36 mm, gold cord.

Thank-you card · A7, tucked into every box. **Tissue & liners** · Monogram Field.

08 — DIGITAL BRAND IDENTITY

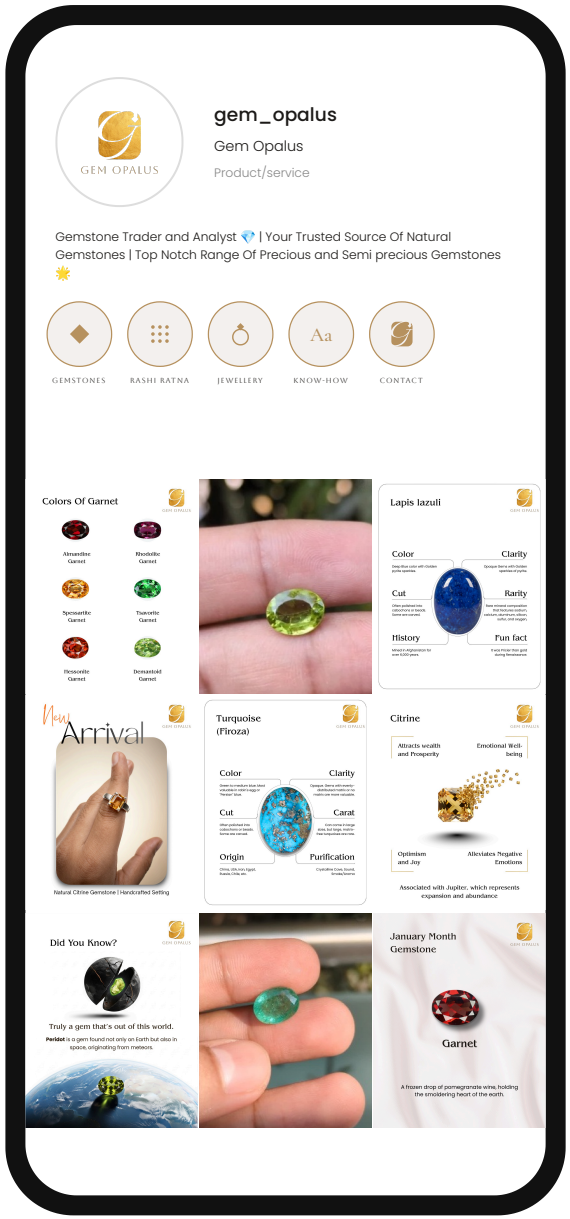

The feed is the shop window.

@gem_opalus already has a clear system: white canvases, one stone, hairline callouts, the lockup in the corner. Alternating these educational posts with real in-hand photography creates a checkerboard rhythm worth keeping deliberately.

HIGHLIGHT COVERS

Pearl circle, gold hairline, Aboreto label beneath. The solid symbol stands in for the brand highlight.

DIGITAL ASSETS

Profile avatar — full lockup on White, as live today.

App icon, favicon, WhatsApp — gold-leaf symbol on Earth.

Watermark — solid symbol in Opalus Gold at 60%, bottom corner, away from the stone.

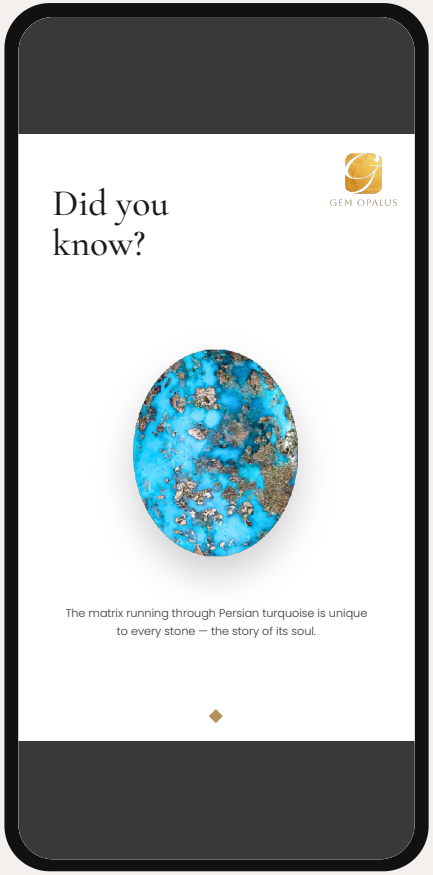

STORY TEMPLATES

The post system, stretched to 9:16.

Three repeatable story formats built from the post grammar — corner signature, Garamond title, a centred stone, Poppins detail. The black bands mark the top and bottom 14% that stay clear for Instagram's interface.

Gemstone profile — callout grammar from the feed.

Did you know? — one fact, one stone.

New arrival — house photograph in the Tile frame.

PROMOTIONAL & SEASONAL

Celebrate without leaving the house style.

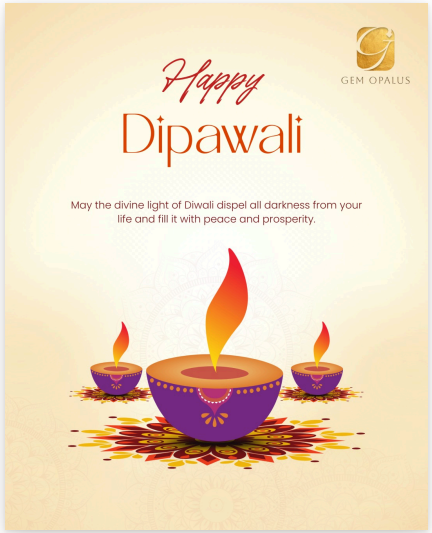

The 2026 greeting is the model: Pearl ground, gold numerals, one quiet line of wishes. Seasonal posts should stay this calm.

- Keep the corner signature and Pearl or White ground on every promotional post.
- Replace the orange script on “New Arrival” with Opalus Gold, and set the script word in Cormorant Garamond Italic — the only off-palette note in the current feed.
- Festival illustrations: one illustration, limited to Leaf Gold, Umber and the stone’s own colour.
- Offers are stated plainly in Poppins — no bursts, badges or countdown graphics.

REFERENCE

Happy New Year 2026 — on-brand seasonal post.

REFINE

Happy Dipawali — keep, but reduce to one palette family.

REFINE

New Arrival — strong product frame; swap orange script for gold.

09 — EXISTING ARTWORK

The leaf behind the letter.

The symbol is cut from this hammered gold surface — the original backdrop artwork used to build the logo. Its brushed relief is what makes the mark feel made rather than drawn: every reproduction of the symbol carries a little of this texture.

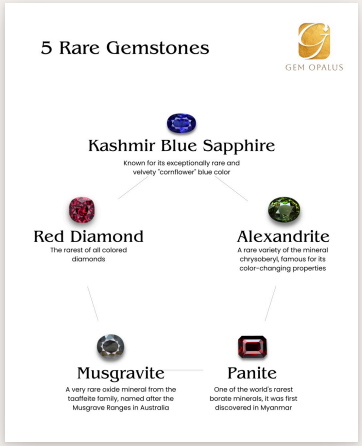

Use it as a material, not a background: full-bleed on covers of print pieces, as the inside of a box lid, or as a single panel beside white — always with the logo on white, never printed directly on top of the gold.

SOURCE	logo backdrop.jpg · 4256 × 2832 px
COLOUR	Leaf Gold #EBB44B — its mid-tone
PRINT	Gold-leaf hot foil, or 4-colour print of the texture on uncoated stock

09 — EXISTING ARTWORK

Gemstone profiles.

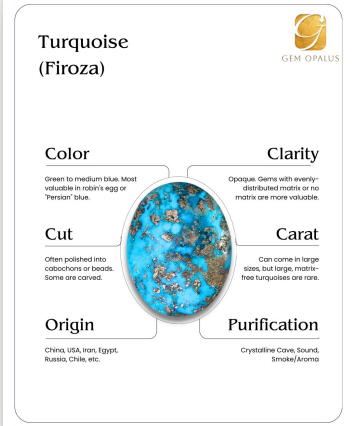

The educational series that defines the brand's voice: knowledgeable, generous, calm. Designed by the founder; shown unaltered.

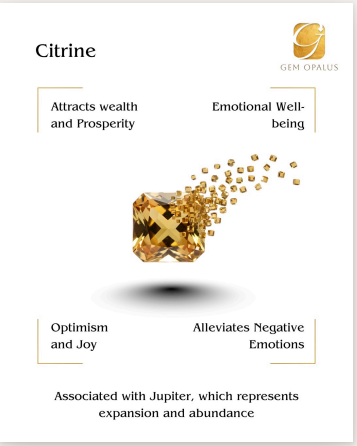

5 Rare Gemstones

Did You Know? — Peridot

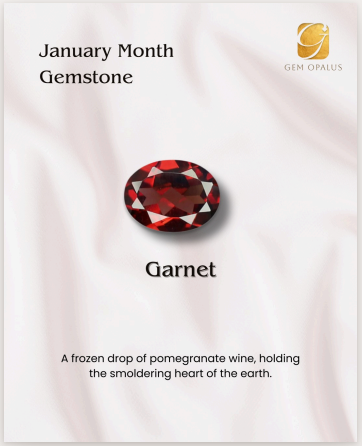

Turquoise (Firoza)

Citrine

Lapis Lazuli

January Month Gemstone

Colors of Garnet

Instagram creatives, 1080 × 1350 px.
Exported from the GemOP Figma file.

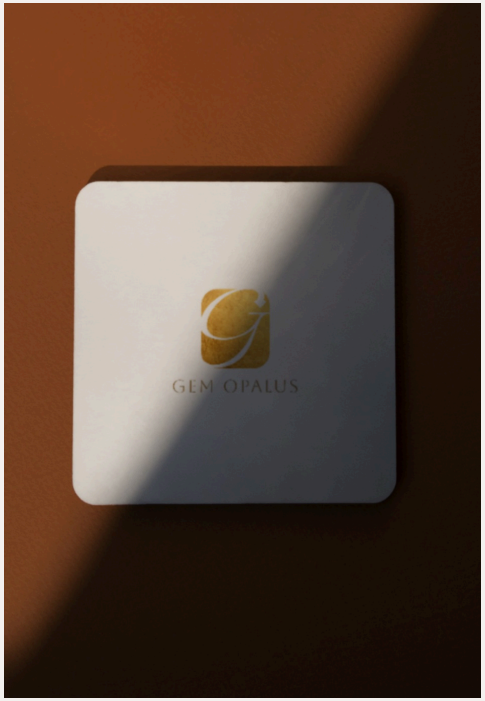

SIGNET RING ARTWORK

The G symbol interpreted as a hand-engraved gold signet — polished, hammered and relief finishes.

ONE SYSTEM — STREET TO HAND

Signage, bag and plaque: supplied mockups. Blade sign: White face, full-colour lockup, bronze or black edge.

GEM OPALUS

Shaped by time. Made to be yours.

@GEM_OPALUS
